

Lederach Starting Hole Procedures

Our league will be the last golfers on the course on Thursdays. We plan to arrive at our tee areas at 5 p.m. and we hope to finish play at about 7:15 p.m.

We will be following two other groups of golfers out on the course:

1. There is another league that starts play on Hole 1 or 10 at 4:00 p.m. The last of their foursomes should be on Hole 2 or 11 at 5:00.
2. There will be tee-time golfers on the course when we start play. The last of those golfers started their rounds at 1:30 and should be playing on the fairway of Hole 8 or 17 at 5:00.

We'll drive out on the course at 4:30 to see where the last of the tee-time golfers are playing. We will ESTIMATE where they will be at 5:00. Our last three groups (B, C and D) will start behind them.

Ideally, our Group A will start play on Hole 1 or 10 at 5:00. Our Group B would start play on Hole 8 or 17 at 5:00, Group C would start on Hole 7 or 16 and Group D would start on Hole 6 or 15. That depends on where the last golfers in the other league are at 5:00.

The groups playing behind the tee-time golfers will need to make decisions about any changes to their starting holes WHEN they approach their target tee areas and see where the other golfers are. We'll have to play behind them until their round is over.

Our hole assignments will be announced at 4:50 when we meet near the putting green to start our rounds.

Our goal will be to be to start driving at 4:55 and reach our starting tee areas at 5:00.

When we get there, divide into twos, threes and fours, with the larger group playing last.
